

Fit Figure Nutrition Plan

This program is designed primarily for women that have plans to enter a Figure Competition.

Duration: This method of supplementation and eating can be followed for the duration of contest preparation. To track progress, follow for a minimum of 4-6 weeks before re-assessment.

YOUR BEST FIT FIGURE SUPPLEMENT PROGRAM:

ESSENTIAL: Start with 2 containers of UMP (pick your favorite flavors, and be sure to mix it up for variety) and two bottles of Lean Out and 7 Keto MuscLean

- Use UMP as directed in the nutrition plan
- Lean Out – 2 with each and every meal and shake
- 7 Keto MuscLean – 3 capsules 2x daily about 6 hrs. apart. Meals 1 & 3 would be a good split

ADVANCED: To accentuate muscle retention and building add in Glutamine Select, Muscularity, Density or all three. Choose Glutamine Select if you prefer a powdered drink mix or Muscularity if you prefer capsules. Add in Density towards the end of your contest prep to ensure muscle retention and hardness.

- Glutamine Select – 2-3 scoops in water during training
- Muscularity or Density – 2-3 with each and every meal and shake

COMPREHENSIVE: To ensure you continue to build muscle while losing fat, add Ultra 40 and Mass to your supplement regimen.

- Mass and Ultra 40 – 3 with each meal and shake

MAXIMUM: This is for someone who really “wants it all”. The final step would be to add GH Factor and/or Energy Reserve for expedited fat loss, or stubborn fat areas. This combo can really help you bust through your plateaus.

- GH Factor – 2 with each meal and shake
- Energy Reserve – 1 with each meal and before training

SKIN AND HAIR BENEFITS: Take 2 each Fit Tabs and EFA Gold with meals 1 and 5.

FIT FIGURE NUTRITION PLAN

- A. 1 whole egg + 3 egg whites
- B. 1 scoop Ultimate Muscle Protein
- C. 3 oz. lean beef or chicken breast

In addition to the above have ½-cup oatmeal

(Many combine the ingredients above into a pancake recipe - www.bevnut.com/recipes/pancakes/)

Meal 2

2 scoops Ultimate Muscle Protein, one tablespoon healthy fat source (olive oil, flax oil, almond butter) or heavy cream

Whole Food Option: 1 can tuna, one small apple or orange

Meal 3

5 oz. lean meat

½ cup cooked brown rice or 4 oz. sweet potato

1 cup vegetables (broccoli, etc.) or 2 cups green salad with 2 tbsp. Vinegar and Oil Dressing

Meal 4

2 scoops UMP in water

Meal 5

6 oz. salmon or very lean meat (chicken breast, fish, turkey breast, lean beef - sirloin, filet, etc.)

1 cup low carb vegetables, and/or salad with 2 tbsp. Vinegar and Oil Dressing

Meal 6 (This is an option if you reduce meal #4 to one scoop protein; you get to make up the rest with sixth meal. Which is better? – depends on what you prefer, either option works equally as well.)

1 Scoop Ultimate Muscle Protein, add enough water to make a shake or pudding the consistency you desire

Whole Food Option: 6 egg whites with 1 cup of vegetables

NOTE: It's okay to adjust portions or add or decrease a meal as needed to maintain progress. Do not worry about the particular order of your meals, if you want to eat Meal #1 as your last meal of the day, go ahead, it's OK.

BEVERAGES: Make sure that you drink at least six to eight 8oz. glasses of water each day (that's four 16oz. bottles). Watch out for calories in the liquids you drink, juices and regular soft drinks will sabotage your progress. Limit your beverages to water, coffee, unsweetened tea, diet sodas, and Crystal Light.

FREE FOODS: You can eat any of the following at any time, without jeopardizing your results: Sugar free gum, sugar-free Jell-O, Splenda, Equal, seasonings, mustard, vinegar, hot sauce, salt and pepper.
